

CONTENTS

Mining of coal deposits

<i>Smirnov A.V., Piliugin V.I.</i> Evolution of modern mining systems of longwall thin flat coal seams	7
<i>Barabash M.V., Cherednichenko Yu.Ya.</i> Transformation SHC “Pavlogradvugillia” in the world class coal-mining company – PJSC “DTEK Pavlogradvugillia”	15
<i>Krasnyk V.G.</i> The main directions of reforming Ukraine coal industry on daily average outlook	25
<i>Vivcharenko O.V., Ruskykh V.V., Sotskov V.O.</i> Determination of roof support parameters for overworking roadway during adjacent seams at extraction in the conditions of Western Donbas mines	35
<i>Nalyvaiko Ya.M., Akimov O.A., Diachenko A.P., Pavlychenko A.V.</i> Algorithm of rock massif stress-strain state calculation when mining a suite of flat coal seams	43
<i>Kurychenko V.Ya., Shchedrin V.O.</i> Justification and selection of ovoid support parameters for development workings	55
<i>Buzylo V.I., Savelieva T.S., Koshka O.G., Serdiuk V.P., Saveliev V.A.</i> Study of the wall rock convergence while stoping operations in the Western Donbas mines	67
<i>Biedariiev M.T., Borodin I.V., Liubymov O.V., Sytnikov G.A., Siemientsov V.V.</i> Visual inspection of lock failure of the anchor in the borehole	73
<i>Felonenko S.V., Bas K.M.</i> On development of a cutter set scheme and determination of strenght parameters of the counter balanced executive booly of the mining machine of selective type	77
<i>Khalymendyk Yu.M., Baryshnikov A.S.</i> Influence of support load-bearing capacity on deformation of gateroads in longwall influence area	85
<i>Medianyuk V.Yu., Netecha M.V., Demchenko Yu.I.</i> Integrated production and utilization of mineral resources	93
<i>Felonenko S.V.</i> Substantiation of rational parameters of dynamically executive device of selective heading machines	101
<i>Demydov M.S., Astafiev D.O., Kaminski P.</i> Specialties of coal seams mining under conditions of Western Donbas	113
<i>Rastsvietaiev V.O., Posunko L.M., Shyrin A.L., Zheglov S.S.</i> Estimation of factors limiting efficiency of transport schemes while preparing coal reserves in Western Donbas mines	117
<i>Savchuk V.S., Prykhodchenko V.F., Prykhodchenko D.V.</i> Influence of geological factors on the manifestation and species composition geodynamic effects in coal mines of Poland	125
<i>Mamaikin O.R., Salli S.V., Pochepov V.M., Ashcheulova O.M.</i> Complex assessment of the recovery ratio of unprofitable mines	135
<i>Yarkovych A.I.</i> Stabitivity increasing of workings with stowing	141
<i>Pavlysh V.M., Grebyonkin S.S., Riabichev V.D.</i> The formulation of the problem of complex hydropneumatic treatment on coal stratum	149
<i>Tarasov V.I.</i> Score perfect belt for the power indicator	155
<i>Pavlysh V.M., Tarabaieva I.V., Grebonkina O.S., Grebonkin S.S.</i> The investigation of mathematical models of the processes of drying of enriching coal in “boiling layer”	163
<i>Biletskyi V.S.</i> Combined technological processes – a promising direction of development in miming	167

Mining of ore deposits

<i>Stupnik M.I., Kalinichenko V.O., Kalinichenko O.V., Muzyka I.O., Fedko M.B., Pysmennyi S.V.</i> Information technologies as a component of monitoring and control of stress-deformed state of rock mass	175
--	-----

<i>Kuzmenko O.M., Petlovanyi M.V.</i> Substantiation the expediency of fine gridding of cementing material during backfill works	183
<i>Babets Ye.K.</i> Solving the problem of working out the sides of iron ore quarries in the areas of influence of underground mining	191
<i>Govorukha V.V., Ladik S.L., Govorukha A.V., Kizilov V.K., Sobko T.P.</i> System of protection of drives of arrow transfers for a rail transport	199
<i>Kononenko M.M., Petlovanyi M.V., Zubko S.A.</i> Formation the stress fields in backfill massif around the chamber with mining depth increase	207
<i>Govorukha V.V., Ladik S.L., Govorukha A.V., Kizilov V.K., Sobko T.P.</i> Researches of dynamic processes of drives of pointer transfers of mining transport	217
<i>Maievskiy A.M., Nesvitailo M.V., Sobko B.Yu.</i> Determination of transition border from open mining works to underground for terms developments of rod-shaped steeply-dipping deposits	223
<i>Gorpynych O.V.</i> Application of ore storages in line production while ore current in bopen pits	231
<i>Vladyko O.B., Maltsev D.V.</i> Analysis of modern methods of quality control of crude ore	243

Mining of gas deposits

<i>Bondarenko V.I., Sai K.S., Ganushevych K.A., Ovchynnikov M.P.</i> Mathematical model development of hydrate formation process intensification based on the results of experimental studies	259
<i>Chernova O.T.</i> Evaluation of gas reserves in underground storage	267
<i>Maksymova E.O.</i> Principle of choice development schemes natural deposits of gas hydrates based analysis of heat transfer processes	275
<i>Mandrikevych V.M.</i> The interaction of two explosion charges on stage of development of their gas voids	283
<i>Biletskyi V.S., Bondarenko V.I., Gaiko G.I.</i> Development of ukrainian mining terminology in encyclopedia	289

Geomechanics

<i>Symanovych G.A., Chervatiuk V.G., Snigur V.G., Malykhin O.V.</i> Displacement mechanism of above-the-coal strata and loading on support along extraction mine working behind the longwall	299
<i>Kravets V.G., Gaiko G.I., Zaichenko S.V., Stovpnyk S.M.</i> Progressive method of anchor-concrete support of capital mine workings and tunnels	307
<i>Kovalevska I.A., Malykhin O.V., Gusiev O.S., Movchan V.S.</i> Research and calculation of side anchors that are set at a height of roof brushing in excavation	313
<i>Novikov O.O., Gladkii S.Yu.</i> Mathematical model of deformation state of rock wall in workings, tip by anchors	319
<i>Felonenko S.V., Gubkina V.V.</i> The stability research of complete hydraulic sections of mechanized roof support	327
<i>Kasian M.M., Nosach O.K., Sakhno I.G.</i> Research of influence the degree of coal moisture saturation, the hydroprocessing edge portion of the formation on the stress-strain state	335
<i>Rudakov D.V., Perkova T.I.</i> Evaluation of permeability changes of clayey screen below impoundments of mineralized mine water	341
<i>Solodiankin O.V., Vygodin M.O., Prokudin O.Z.</i> Mine research of geomechanical processes during extended workings in complicated geological conditions of the SSC "Mine named after Geroiv Kosmosu"	349
<i>Rakishev B.R., Kovrov O.S., Fedotov V.V.</i> Geomechanical assessment of reinforcing properties of the lignosa root systems on the hillsides and technogenic slopes	355
<i>Kasian M.M., Nosach O.K., Liashchenko M.O.</i> Stress state simulation of interchamber pillars of Artemivsk salt deposits	363

<i>Vlasov S.F., Vlasov V.S.</i> Substantion of volumetric modeling of rock massif around mine working and development workings	367
<i>Filatiev M.V., Antoshchenko M.I., Gasiuk R.L., Pyzhov S.V.</i> Scheme generalized displacement undermined by coal beds rocks and earth surfac	375
<i>Vlasov S.F., Vlasov V.S.</i> Research of roof rocks falling mechanism on a volumetric model of a layered transversal-isotropic massif during stope movement	383
<i>Garkusha V.S.</i> Rheological properties study of grouting mixtures based on the waste rocks	389

Labour protection

<i>Cheberiachko S.I., Stolbchenko O.V., Naumov M.M.</i> Evaluation of respiratory devices parameters influence on working capacity	397
<i>Klochkov V.G., Pugach I.I., Mukha O.A.</i> Determination of the location and volume of the accumulation of methane in the mined-out space	403
<i>Martynov A.A., Zazymko V.I., Yakovenko A.K.</i> Software application in designing of a set of actions to improve the thermal conditions in deep mines	411
<i>Cheberiachko S.I., Yavorska O.O., Cheberiachko Yu.I.</i> Determination of dust respirator safety application field	421
<i>Novikova O.O.</i> Influence of work conveying to change concentration in the mine working	429
<i>Saveliev D.V.</i> Distribution of fine dust particles within turbulent ventilation flow at blasting operation	435
<i>Gorobei M.S., Bulgakov Yu.F., Shaikhislamova I.A., Alekseienco S.O.</i> Development of mathematical model for aerodynamic interference of sprayed water with coal dust particles	443

Ecology

<i>Svietkina O.Yu., Tarasova A.I., Netiaga O.B., Yegorov P.O.</i> Processing of waste heat power industry	453
<i>Myronova I.G.</i> Changing of biological traits of winter wheat that vegetate near emission source of iron-ore mine	461
<i>Symonenko V.I., Pavlychenko A.V., Cherniatiyev O.V., Grytsenko L.S.</i> Ecologically-saving technologies of field development in conditions of reduced sanitary protection zone	469
<i>Lavryk M.O., Pavlychenko A.V., Tripachova K.V.</i> Study of character and degree of impact of mine drainage ponds on the environment	477

Borehole technologies

<i>Saik P.B., Falshtynskiy V.S., Dychkovskiy R.O., Lozynskiy V.G.</i> Revisiting the preservation of uniformity advance of combustible face	487
<i>Kozhevnykov A.O., Ratov B.T., Sudakov A.K., Mostynets O.N.</i> Experience of equipment of hydrogeological well of cryogenic-gravel filter	493
<i>Davydenko O.M., Ignatov A.O.</i> Some features of work of device on preparation of bore hole to fastening	501
<i>Tishkov V.V.</i> Assessment of factors affecting the change in permeability parameters massif at underground coal gasification	507
<i>Pedchenko L.O., Pedchenko M.M.</i> Control of system fase equilibrium with gas hydrates in the elements of gas hydrate technologies	515
